

# Do at Home Craft

## This week's crafting activity... Household Treasure Hunt!

Get the children to choose a certain item to be the household treasure! These games can be played indoor or outdoor. But remember, 'X' always marks the spot!

- 2 games with different time limits
- Add in some craft elements
- Can be played indoor or outdoor
- Children can be as creative as they like!

## How to play:

### Game 1:

Each family member takes it in turns hiding the object. After it has been hidden, take it in turns to find the object.

You can use the 'hotter' or 'colder' method: the closer you are to the treasure the hotter you are. The further away to the treasure the colder you are.

### Game 2:

Each family member can choose an item, after it has been hidden they each create their own treasure map, this adds in a crafts element.

Once you all have created a treasure map, the game begin. Swap maps over and go looking for the treasure!
